The Brakeman Gets His Show - The Parlor Cars - Wages of Ratiroad Men - News Notes Asserted.

Few people know anything of the life of a brakeman. Whether he is on a passenge or freight train, he is always subjected to the cold, rainy and disagreeable weather. It all seems pleasant to the passengers in the cars, who have nothing to do but wait for the station at which they get off, to see the brakeman in his uniform come in and call the stations and assist the lady passen gers on and off the cars. This is not all be has to do, but it is all the passengers see throughout the city confederate flags were Mr. Powderly is opposed to any sort of a him doing. A brakeman's life is made up flying. Everybody has from one to a dozen political move on the part of the Knights of about nine parts shadow and one part ushine. You look at a brakenian standing m top of the box cars in a long freight train. It matters not what the weather is ie is always at the wheel ready to stop the train at the proper stations and railroad ossings. As a rule his salary is scarcely ufficient to provide himself and family with the most common necessities of life and he has no means of laying up anything for a "rainy day." He is not even sure of holding his position from one day to another, and summing it all up, his life is not always a happy one.
